

Creating and editing drafts in your MyProgress app

You can save the form you're completing as a draft, if you need more time to do so.

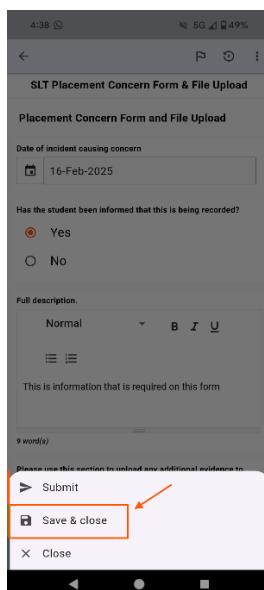

Please note: All drafts started in the app must be completed and submitted in the app.

Creating your draft

To save a form as a draft, go into the form and press on the vertical dots in the top right hand corner of the screen.

This will bring up a pop up from the bottom of the screen. Press "Save & close" to save this as a draft.

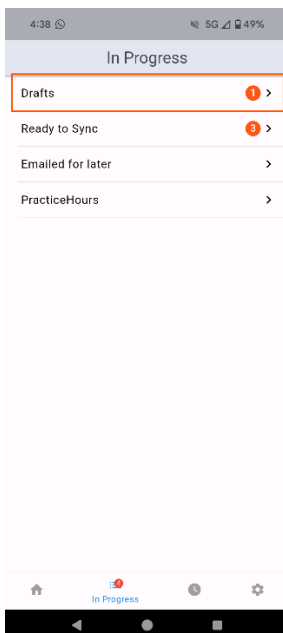

Finding and editing your draft

To continue working on the form you just saved as a draft, press the "In Progress" option from the app menu.

Press "Drafts"

MyProgress Creating and editing drafts in your MyProgress app

Press on the draft that you would like to edit.
