

I don't have an iPhone, iPad or an Android device - What else do you support?

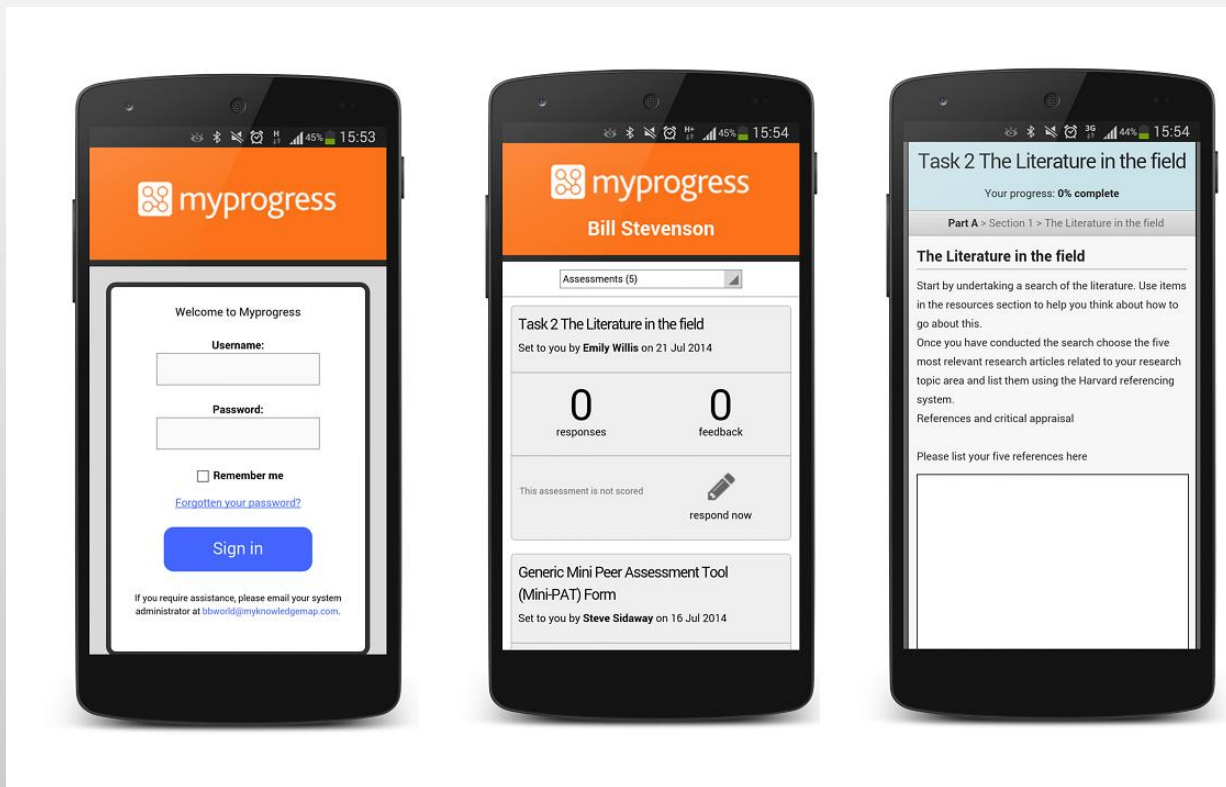

Compatibility

The Myprogress mobile apps are only compatible with iOS devices - iPhone, iPod Touch and the iPad - and Android smartphones and tablets.

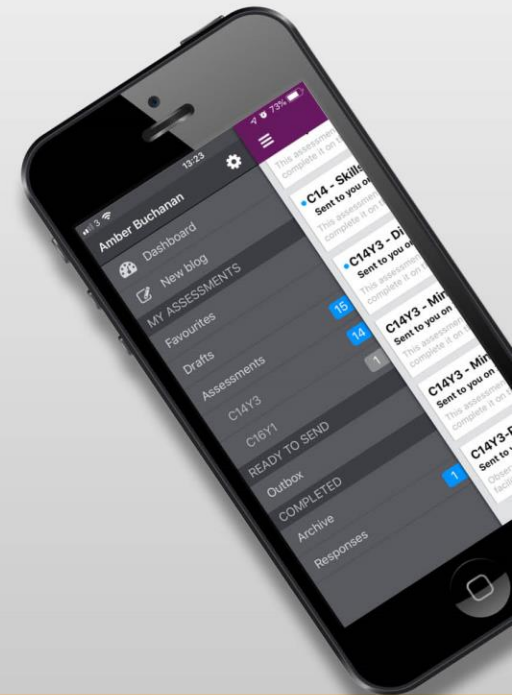

If you don't have one of these devices, or are unable to install the app onto them, you can take advantage of the mobile-ready web version. Simply use your mobile browser to access the website as you would when using a desktop computer. Myprogress will detect that you're using a mobile device and will automatically tailor the experience for you.

Important

****Please note, functionality available in the mobile-web optimised format is limited to student functionality only****

If you have any further questions regarding this area of MyProgress please feel free to send an email to the below address or submit a ticket via the helpdesk.
